## Waltz Time: Slow, Fast and Odd

Richard Powers explores diverse 3/4-time tempos and moves in this waltz weekend with new workshops that cover the main points of the essence of waltzing, easy waltz variations, Gulf Coast Blues in Waltz time—or the St Louis Shuffle, hyperspeed waltz and polka with ease and flair, Hambo Polska, Role-reverse Five-Step Schottisch, and new Crosstep variations in odd rhythms and crossing back and forth. Split Tree's visiting artistic director since 1997 and Stanford dance historian/professor, Richard Powers is one of the world's foremost experts in the history and teaching of American and European social dance.
